This technical drawing illustrates the layout of an existing wastewater treatment facility, showing the planned reconstruction of the active sludge treatment system. The plan includes a grid of points with elevation values, contour lines, and various structural elements like walls and pipes. Key features include:

- Grid and Elevation:** A grid of points with elevation values ranging from approximately 127.0 to 139.0 meters above sea level. Contour lines are drawn at 0.5m intervals.
- Structural Elements:** Walls, pipes, and other infrastructure are shown in black and red lines. Some areas are hatched to indicate specific materials or structures.
- Orientation and Scale:** A north arrow points towards the top right. A scale bar indicates a distance of 10.00 meters.
- Labels and Markers:** Various labels are present, including '155/1', '155/2', '156/2', '159/1', '161', '162', '163', '164', '165', '166', '167', '168', '169', '170', '171', '172', '173', '174',
